

GBS

Eva Gelb, Ellie Esquenazi,
Jessica Waxenghiser,
Zoe Schrager, and Mrs. P

Jessica Waxenghiser

- Age-11
- love to sing, dance, bake and to sew
- My favorite part of GBS is being with my friends and learning
- My favorite subject is math

Zoe Schrager

- 11 years old
- Born in Hollywood, FL
- I love cooking and dancing
- My favorite part of STEAM is being with my friends and learning

Ellie Esquenazi

- 11 years old
- Love to sing, dance, and act
- My favorite part of GBS is being able to do cool activities with my friends
- My favorite subject is math

Eva Gelb

- Age 11
- Love acting, singing, dancing
- My favorite thing about GBS

is having fun with friends

- In school my favorite subject is reading.

Mrs. P

- 19 years of teaching in ECE-5th
- Saw this [video](#) which made me want to start GBS
- www.girlsbuildingsteam.weebly.com
- [STEAM and Literacy activities](#)

How to get kids involved and excited

Tell students about what fun things you would do
like making marshmallow towers
working with glow in the dark paint
building a ferris wheel
making slime

And even though the slime didn't turn out the way we planned it's always fun to experiment.

Eva

What is good and what is bad....

- always fun
- sometimes things can go wrong
- always learn from your mistakes
- can be a little sad and annoying but you can always try again or start a new project

In Girls Building STEAM we have been...

- blowing up ping pong balls
- building a ferris wheel
- Glow in the dark painting
- designing superheroes
- math and science with candy
- homemade rockets with Alka Seltzer

Zoe

we do GBS because...

- to support girls in their journeys to becoming doctors, scientists, computer scientists, engineers, artists, etc.
- these topics get boring
- we do fun activities so they stay interesting

It's Time to Play!

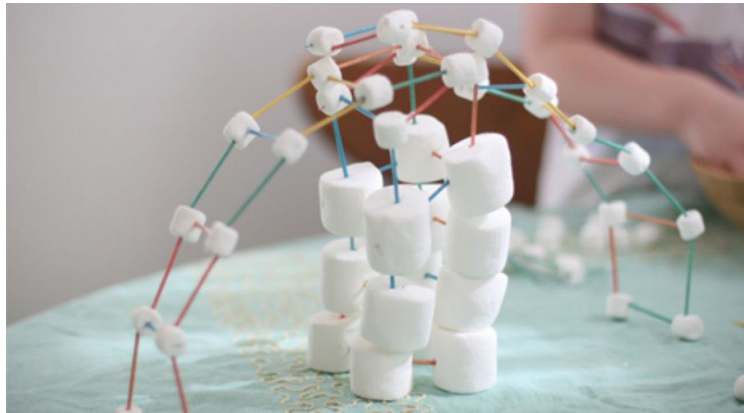

You will have 15 minutes in
each of the two areas.

Then we will come back
together for questions and
prizes!

Area 1

MAKE A MARSHMALLOW TOWER USING MARSHMALLOWS, TOOTHPICKS, AND SKEWERS. YOUR TOWER SHOULD BE 16 INCHES. THEN, TAKE A PICTURE OF YOUR TOWER AND TWEET IT TO @penchevable with #girlsbuildingSTEAM

TOPICS INCLUDE:
TECHNOLOGY, ENGINEERING, AND MATH

Area 2

Paint something that has to do with SCIENCE.

(ex. beakers, test tubes)

Use the glow paint to accent your painting.

Take a photo of your painting and tweet it to @penchevable and use the #girlsbuildingsteam

Topics included -
Science, Technology, and Art

Prize time

Wheel of Fortune!

(classtools.net)

Hope You enjoyed!!!
