Go to www.weebly.com

Create your free account. Weebly has a video of how to that loads with the option to watch it now or later.

From now on when you visit weebly, you will LOG IN, not sign up. Click log in on the top right side.

You will need to categorize your site, give it a name, and set up your domain name. The URL/domain name can be changed later.

You will also select your theme for the pages (can be changed later.)

Click Edit beside My Site to open your webpage.

.

Now is the fun part…adding your content.

 On the side, click and drag the tools to the work page to build your pages. You can add titles, text, pictures, links, maps, and more!

To add a page, click the pages button at the top. Then, click ADD +. Choose the type of page and then it will add that page for you.

When you are ready, click the publish button at the top of the page. This will make you website available on the internet.
